

Exclusive Banker Brief: U.S. Market Entry & Asset Security Allocations 2025

Executive Preface

In 2025, international operators face unprecedented challenges entering the U.S. market. From compliance frameworks to banking rails, delays can stall expansion and erode value. Kayanda LLC offers a structured, banker-led allocation framework to bypass bottlenecks and deliver immediate U.S. presence and asset protection.

Allocation Structures Overview

Two allocation pathways are available: 1. Reservation Pathway – A low-barrier commitment that secures your intent and confirms your position in the U.S. entry docket. 2. Full Execution Pathway – A complete service bundle with priority onboarding, entity formation, compliance clearance, and banking integration.

Immediate Deliverables

Every allocation unlocks:

- Entity Formation & Governance – Delaware C-Corp/SPV setup, EIN, registered agent.
- Banking & Capital Rails – U.S. bank relationships, payment rails, treasury compliance.
- Tax & Compliance Clearance – Federal/state registrations, liability structuring.
- Strategic Vendor Onboarding – Access to pre-cleared legal, accounting, and enterprise vendors.
- Pilot & Market Access – Introductions to U.S. buyers, utilities, and agencies.

Next Steps & Confidential Notice

This allocation is confidential and time-sensitive. Immediate action ensures placement in the 2025 priority docket. Operators are encouraged to reserve their slot without delay.
